

NUCLEAR NAVY

Tight deadlines.
Exacting standards.
Custom production.
Whatever your shipbuilding needs, KEEL delivers quality, precision and timeliness. With a history of heavy fabrication and precision machining behind us, we're ready to stand behind you. From engineering and design to assembly and delivery, we understand the stakes.

TRUE-BLUE DEPENDABILITY

WHEN YOU NEED ALL HANDS ON DECK

ADVANCED MANUFACTURING

A nuclear navy demands 21st-century manufacturing capabilities. KEEL delivers cutting-edge steel fabrication solutions that power maritime technologies and mission-critical naval programs. When the pressure is on, you get precision, reliability and peace of mind.

MASSIVE DIMENSIONS

In the outsized world of aircraft carriers and naval platforms, every weld matters. KEEL specializes in crafting large, fracture-critical steel fabrications using advanced welding and construction techniques to meet stringent naval standards.

EXACTING PRECISION

Achieving your naval objectives can depend on manufacturing differences that only lasers can measure. From highly technical and intricate parts to safety-critical navigation components, KEEL has the capabilities you need for the accuracy and precision your project demands.

CUSTOM PRODUCTION

With a highly adaptable production environment, a wide array of multifunction machinery and a cross-trained team of machining and manufacturing professionals, KEEL stands ready to efficiently and cost-effectively tackle your custom products and short-run production.

CLASSIFIED FUNCTIONALITY

With secure facilities and a highly trained engineering team, KEEL provides military-grade production security for even your most sensitive projects.

MISSION CRITICAL

Shipbuilding and naval defense are serious work, and it demands a serious production partner. At KEEL, we understand the stakes for naval crews and for your reputation. It's all hands on deck to ensure your mission-critical parts will meet or exceed safety and performance requirements on both land and sea.
